# FoodSmartphone vacancies

## Smartphone analyzers for on-site testing of food quality and safety

#### Consortium

Institution's Name	Organisation short name	Country
STICHTING DIENST LANDBOUWKUNDIG ONDERZOEK RIKILT Wageningen University & Research	RIKILT	NL

#### Background

A paradigm shift in food quality and safety testing is required in order to free resources for an intensified combat against fraud in the food chain. As an enabling technology solution to the problem, FoodSmartphone proposes the development of smartphone-based (bio)analytical sensing and diagnostic tools, for simplified on-site pre-screening of quality and safety parameters and wireless data transfer to servers of relevant stakeholders. The consortium has been built upon highly complementary disciplines: (bio)analytical chemists, biologists, physicists, micro/nano-engineers, mathematicians, organic- and food chemists will work together on the joint supra-disciplinary goal. FoodSmartphone offers the ESRs (early-stage researchers) an extensive programme of both mandatory and optional network-wide training events and intersectoral secondments. The scientific training in novel smartphone-based sensing technologies plus the complementary skills training provided, will have a major impact on future EU monitoring practices and, moreover, pave the road for Citizen Science.

#### **Facts & figures**

<b>Grant Agreement</b>	: 720325 – FoodSmartphone - H2020-MSCA-ITN
Start date	: January 2017
Duration	: 48 months
Volume	: 2.8 M€
Coordinator	: Prof. Dr. Michel Nielen
	<b>RIKILT Wageningen University &amp; Research</b>

**Participants** 

: Universities, research centres, industry and SMEs

### **11 vacancies for PhD student projects**

Vacancy topic	PhD	Country
Affordable FoodSmartphone assays for allergens	ESR1	NL
Confirmatory analysis by mass spectrometry	ESR2	NL
Plasmonic FoodSmartphone assays for marine toxins	ESR3	UK
Plasmonic FoodSmartphone assays for food spoilage	ESR4	UK
Image data analysis on FoodSmartphones	ESR5	UK
Enzymatic FoodSmartphone assays for AChE inhibitors	ESR6	CZ
Multiplex binding array designs for FoodSmartphones	ESR7	SP
Electrode arrays for FoodSmartphones	ESR8	SP
Plasmonic imaging FoodSmartphones	ESR9	SE
Nano-sample preparation for FoodSmartphones	ESR10	NL
FoodSmartphone assays for aflatoxins	ESR11	СН

#### **Information / contacts**

Prof. Dr. Michel Nielen **RIKILT** Wageningen University & Research PO Box 230, 6700 AE Wageningen, The Netherlands E-mail: michel.nielen@wur.nl

Mr. Wim Beek Project secretary E-mail: wim.beek@wur.nl

FoodSmartphone is funded by the European Community's Horizon 2020 Framework Programme under Grant Agreement - 720325
